#### **DETAILED ACTION**

### Claim Rejections - 35 USC § 112

1. Claim 1 is rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is indefinite in reciting that the alloy of the tube is either made of specific materials, as is recited in "a" or is made of any material that has the specific properties recited in "b". It is not made clear what the applicant feels the invention is wherein in one example it may be formed of certain elements, or it could equally be formed of a variety of materials or just one material that has a mean 100,000 hour stress rupture value of 6 MPA at 1000°C. Also it is confusing as to whether the tube has the recited structure regarding the internal profile only if the alloy has a mean 100,000 hour stress value or if it also has this structure if the alloy is "a".

## Allowable Subject Matter

- 2. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2<sup>nd</sup> paragraph, set forth in this Office action.
- 3. Claims 2-8 and 47-54 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Serial Number: 09/375,586

Art Unit: 3752

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **PATRICK F. BRINSON** whose telephone number is (703) 308-0111.
